PROFILE SUMMARY

As a third-year student pursuing a degree in B.Tech CSE with specialisation in Full Stack Development, I am excited to apply my academic knowledge and skills to a professional environment. I have gained a strong foundation in MERN Stack (MongoDB,Express,React JS and Node JS) through my coursework and projects. During my time at university, I have actively participated in Many Hackathons, which has allowed me to develop my communication, leadership and teamwork skills. These experiences have taught me the importance of collaboration and effective communication in achieving project goals. I enjoy learning new technologies and am always eager to expand my skill set.

TECHNICAL SKILLS

HTML	TAILWIND	MONGO DB	TYPESCRIPT	PHP
CSS	JAVASCRIPT	REACT JS	C++	GIT
BOOTSTRAP	NODE JS	NEXT JS	PYTHON	

EDUCATION

Bennett University, Greater Noida, Uttar Pradesh Bachelor of Technology in Computer Science SGPA(9.69/10.0) in 3rd semester. SGPA(9.34/10.0) in 4th semester.	2021-2025
Ryan International School, New Delhi Class 12 : PCM + Computer Science 86 percentile in CBSE Boards	2020-2021
Ryan International School, New Delhi Class 10th : 83 percentile in CBSE Boards	2018-2019

PROJECTS

1. AIR-BNB Clone

- <https://github.com/Nimish-Dureja-10/airbnb>
- Front-End : The UI of the website is designed using React JS and Tailwind css.
- Back-End : The functionality part is done using Restful API's using Node JS and Express JS. Also used JWT to keep user's details safe and secure.
- Database : The database used to store data is MongoDB.

3. Part-Time Job Providing Website

- <https://github.com/Nimish-Dureja-10/Part-timerzproject>
- Front-End : The UI for the website is designed using React JS and Chakra UI.
- Back-End : The functionality part is done using Restful API's using Node JS and Express JS. Also used JWT to keep user's details safe and secure.
- Database : The database used to store data is MongoDB.

2. Ecommerce Store

- <https://github.com/Nimish-Dureja-10/ecommerce-website>
- Front-End : The UI for the website is designed using React JS and React-Bootstrap library.
- Back-End : The functionality part is done using Restful API's using Node JS and Express JS. Also used JWT to keep user's details safe and secure.
- Database : The database used to store data is MongoDB.

4. Tindog website

- <https://github.com/Nimish-Dureja-10/Tindog>
- It's a static website designed using HTML, CSS and JAVASCRIPT.

5. Drumkit website

- <https://github.com/Nimish-Dureja-10/Drumkit>
- It's a static website designed using HTML, CSS and JAVASCRIPT.
