Personal Projects

JobSeekr (React.Js, Redux, Node.Js, Express.Js, MongoDB, Cloudinary) [Website](#) | [Github](#)

- Constructed a cross-platform job hunting and providing application, improving user experience on both mobile and web interfaces.
- Enhanced user interface efficiency by implementing ShadCN, achieving a 30% reduction in design time.
- Implementing MVC architecture for robustness and scalability, ensuring a 20% improvement in system performance and maintainability.
- Developed key functionalities including applicant resume viewing and decision-making that facilitated the hiring process; resulted in a noticeable acceleration of recruitment timelines by approximately 25%.

Blog Application (Next.Js, CSS)

[Github](#)

- Crafted a user-centric interface through extensive user research and iterative design, resulting in a 40% increase in average session duration and a 25% boost in user retention.
- Optimized reader engagement by 20%, offering users an enriching and immersive reading experience.
- Implemented server-side rendering for SEO optimization, resulting in a 30% elevation in search engine rankings.

NewsX (React.Js, Node.Js, Express.Js, MongoDB, Tailwind CSS)

[Website](#) | [Github](#)

- Streamlined news retrieval process by implementing a custom-built API integration system, reducing news retrieval time by 50%.
- Accomplished a user-centric feature allowing individuals to contribute original news content not found elsewhere.
- Engineered a chat feature that facilitated instant message exchanges, driving a 25% rise in user interactions and fostering a collaborative environment around trending news stories.
- Completed thorough testing and managed API records using Postman to ensure system reliability and efficiency.

Online Shopping Store (React.Js, Node.Js, MongoDB, Bootstrap)

[Website](#) | [Github](#)

- Developed a modular codebase following the MVC model, resulting in improved scalability by 40%, facilitating future expansions and modifications.
- Designed a visually appealing and easy-to-navigate interface for users, resulting in a 30% increase in user engagement and satisfaction.
- Incorporated efficient state management using context API, enabling seamless communication between components.

Relevant Skills

- **Frontend Development**- JavaScript, Typescript, React.Js, Next.Js, Redux, React Native
- **Backend Development** – Node.Js, Express.Js, Flask
- **Database** – NoSQL (MongoDB), MySQL

- **Cloud Technology** – Docker, Cloudinary, Vercel, Render
- **Programming Language** – C++, Python

Education

Bennett University

2021-2025

B.Tech Computer Science Engineering

CGPA-8.99

Relevant Coursework: Computer Networks, Operating Systems, Cloud Infrastructure and Services, DSA using C++, Design and Analysis of Algorithms, Python Programming, Information Management Systems, Software Engineering

Certificate and Achievements

- **Bits Pilani Postman API Hackathon 3.0**
- **The Complete 2023 Web Development Bootcamp**
- **Certificate of Merit (Naukri Campus Young Turks)**
- **ICPC (International Collegiate Programming Contest)**
 - Secured 590 rank in ICPC India North Zone.
